CARD.

Having examined the New Patent Shaft Coupling invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongue to all vehicles that has ever been used.

It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha, so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to ... water ... heretofore considered the best ... use.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MARCH 28

Congressional

WASHINGTON, March 28.—In the Senate resolutions of the Iowa Legislature in favor of the recognition of Cuban belligerency were presented and referred to the Committee on Foreign Relations.

Drake requested the chairman of the Judiciary Committee to give the reason for the delay in reporting the bill for the admission of Texas.

Trumbull, the chairman, called attention of the Senate to the fact that the admission of General Ames was a question of high privilege and still undisposed of. He said he could not understand the unusual haste in regard to Texas. When the bill came from the House an effort was made by the Senator from Massachusetts, Sumner, to consider it without reference to the committee at all. The bill itself contained a clause that it should not affect any of the conditions or guarantees upon which Texas was originally annexed or admitted as a State. One of those conditions provided that the States which might thereafter be carved out of the territory of Texas should be admitted into the Union with or without slavery as the people of each State might at the time of their admission desire. This clause was contrary to the Constitution of the United States. The Judiciary Committee therefore desired to amend the bill so as to report it in proper shape.

Drake thought the fact of the difficulty ought to lead to an early report.

Thurman, in view of recent events, feared such a report from the Judiciary Committee would insure the hostility of the Senator from Missouri. He suggested that the best plan was to send in an adverse report and then certain Senators would be sure to vote to admit the State. Further colloquy was stopped by the calling of the regular order of business.

Nye introduced a bill granting lands to aid the construction of a railroad from the Central Pacific in Nevada to the Colorado River; referred to the Committee on Public Lands, as also was a bill by Revels granting lands and right of way to the New Orleans and Northwestern Railroad.

Sherman offered a resolution, which went over under objection, discharging the Judiciary Committee from the further consideration of the Texas bill. The Senate at one o'clock P. M. went into executive session.

In the House bills were introduced and referred incorporating the South Trans-Continental Railway Company and granting lands and right of way; to prevent the collection of illegal taxes on passengers levied by State authority, and one providing for the payment of pensions in gold. A number of petitions were presented.

Arnell offered a resolution declaring that the Christian religion is a part of the common law of the land and therefore that the use of the Bible in the schools throughout the country is eminently proper as tending to encourage and foster virtue.

The Democratic Quarrel in New York

NEW YORK, March 28.—The meeting of the Tammany Hall general committee, announced for to-night, did not take place. The hall remains closed, the entrance being guarded by a large force of police. It seems a meeting of Sachems was held this afternoon, among whom was Oakey Hall, Peter B. Sweeney and Judge Dowling, which adopted resolutions to the effect that the movement for the meeting originated with Morrissey and his associates with the object still further to foment disturbances in the party which they inaugurated; that threats of personal violence were made against members of the committee substituting mob force for the regular orderly action of the Democracy, and refusing to open the hall for such a purpose. They also appointed a committee to adopt measures to secure just representation to the Democrats in the city general committee and harmonious organization of the party. Great excitement prevailed with regard to the action of the Sachems among the adherents of Morrissey and O'Brien, who assembled in great numbers in front of the hall. Apprehensions of violence have been so great that Bryant's minstrels closed their theater. The Young Democracy finally betook themselves to the City Hall, in the basement of which they had a meeting. Nearly all the leaders of the recent movement against Tweed and Tammany were present. A number of speeches were made accusing their opponents of being in league with Superintendent Kennedy and the radicals. The session was quite stormy. There was considerable wrangling among the leaders and the meeting finally broke up without determining upon anything.

NEW YORK, March 28.—The World's editorial of to-morrow will say that the Young Democracy count 18 members of the General Committee. It lost one only, who was absent from his post. The ring, it says, irretrievably ruined itself and took refuge in an ignominious and cowardly flight. These 187 men, being a majority of 32, unanimously passed resolutions asserting the demands of the Young Democracy as to legislation, declaring their contempt for the cowardly flight of the ring from a vote, and then peaceably dispersed. The Young Democracy have a majority in the Tammany General Committee, and count thousands among the people to the ring's ten. These two facts insure the ultimate deliverance of New York City and State from the ring corruptions.

Important Supreme Court Decision

WASHINGTON, March 27.—The Supreme Court of the United States to-day affirmed the decision of the Court of Appeals of Kentucky, that a State may levy a tax on the shares of a National Bank and enforce collection through the bank, holding that the shares of a bank are the property of shareholders, and are distinct capital. The Chief Justice dissented.

Speech Against the San Domingo Treaty

WASHINGTON, March 28.—In Executive session this afternoon Senator Schurz made a speech against the ratification of the San Domingo treaty, based on the ground that we do not need any more southern territory as necessary to our national interests, and that the adoption of this measure would lead to further absorption of foreign territory with inhabitants unfitted for republican institutions.

Cars off the Track

CHICAGO, March 28.—A special train of twelve cars loaded with tea from San Francisco was thrown from the track near Cedar Rapids ... yesterday. The ground being soft but little damage was done to the cars and none to the tea.

Time Extended for Ratification of San Domingo Treaty

CHICAGO, March 28.—The Journal's Washington special says the President sent a message to the Senate to-day informing them that the Dominican Government had consented to extend the time for the ratification of the San Domingo treaty. It will probably be laid aside.

A Rumor Concerning the Legal Tender Decision

CHICAGO, March 28.—A Washington special to the Tribune states that the Supreme Court will probably reverse its recent legal tender decision in other cases about to be heard, involving the same point, and says the Court as now constituted stands five to four against the previous decision.

WASHINGTON, March 28.—Letters were received at the War Department to-day from Col. Baker to Gen. Sheridan, in reply to a telegram from the latter asking for details and announcement ... of the ... says the whole number killed was 173, of whom 140 were ... men and ... were women and children. 140 women and children were also captured and released. He says he believes every effort was made by the officers and men to save non-combatants, but such as were killed were killed accidentally. He says the reports published in the Eastern papers are wholly ... and false, and that all the officers demand of the authorities a full and complete investigation, and that less than this cannot be conceded them.

Miscellaneous

SPRINGFIELD, Mass., March 29.—The mill of the Hampden Paper Co. at Holyoke was burned last night. Loss $250,000; insured for $201,000. One hundred and fifty hands are thrown out of employment. The Company will rebuild immediately.

HALIFAX, March 28.—The steamer City of ... from Liverpool for New York has arrived. She made a southern passage in search of the City of Boston without success.

NASHVILLE, March 28.—A Republican sheriff and jailor, the latter colored, have been elected in this county. The rest of the officers are conservatives.

BY THE CABLES

LONDON, March 28.—The Times, reviewing the proceedings of the high court at Tours, pronounces Prince Pierre Bonaparte a creature not to be trusted with a deadly weapon, but to be kept like a madman under constant watch.

LONDON, March 28.—The Post urges the policy of extreme rigor toward Ireland.

The acquittal of Prince Bonaparte is much commented on here.

LIVERPOOL, March 28.—Outgoing trans-Atlantic steamers are ordered to take a southerly course to avoid icebergs, unusual numbers of which are reported.

LISBON, March 28.—The South American steamer has arrived bringing dates to the 7th inst. from Rio Janeiro.

At last accounts from Paraguay the Brazilian troops were rapidly moving in pursuit of Lopez.

CALIFORNIA

From San Francisco

SAN FRANCISCO, March 29.—Julia Regan, a native of Ireland, aged 20 years, unmarried, was examined before the Commissioner of Insanity to-day and sent to Stockton.

Shortly after 1 o'clock this morning a dozen sailors attached to H. B. M. steam frigate Zealous were ordered to man one of the boats. They sprang to the little craft and bent to the oars with a will. In their great hurry, the officers who contemplated coming ashore in the boat were left behind. No pursuit being made, the deserters landed safely at India dock and proceeded to stow themselves away.

A fire occurred about 3 o'clock this morning by which Gabland & Co.'s Axle Grease manufactory at North Beach was damaged to the amount of $1,000.

Gen. Thomas' death has cast a gloom over the entire community, and we mourn the loss of a faithful soldier and citizen. The city is arrayed in a garb of mourning. The flags among the shipping upon the fortifications and public and private buildings are flying at half mast. According to the expressed wish of Mrs. Thomas all ostentatious display in the funeral services will be avoided. The remains will be sent East on Thursday. Gen. Sherman has sent an official dispatch to headquarters here, announcing that the news of Gen. Thomas' death has been received at Washington.

Mining stocks continue steady. Empire receded from 30 to 28 from the morning Board yesterday. Gould and Curry advanced $2. Hale & N. $4. Yellow Jacket $7 50. Crown Point, $1 00. Kentuck and Ophir each declined.

NEVADA.

VIRGINIA CITY, March 29.—The flags of the different mining companies, engine houses and buildings are displayed at half mast in respect to the memory of Gen. Thomas.

A Mexican who was part owner of a wood ranch about twelve miles from Dayton, was found dead yesterday afternoon. His two partners say that he started out after the mules in the morning and in the afternoon he was found with two gun shot wounds through his body and skull badly broken. No clue as to the perpetrators.

Wells, Fargo & Co. ship to-night 20 bars of bullion valued at $43,887 10.

Exciting Encounter with a Whale

Two right whales were discovered in the harbor about three o'clock Monday last. The cry of "there she blows" was soon repeated along the shore, directly followed by hasty manning of whale boats and hurrying into them the weapons and gear for chase and capture. Some half dozen boats equipped and manned with six men each soon started in pursuit. After a chase of about three-quarters of an hour the whales, the while eluding their pursuers by soundings and irregular spoutings, a boat steered by George Smith and "boarded" by Archibald McCurdy, both experienced whalemen, was run upon the broadside of one of them, and McCurdy, to use his phrase, sent his iron home to the seizing into her bilge.

The scene now became exciting to the actors and hundreds of spectators who were witnessing the proceedings from the town. The wind at the time was blowing a gale from the north, and so cold that the spray froze as it flew. The whale ran sharply now to windward, now to leeward, then following the shoal water back and forth along the west end of the harbor, the loose whale all the time keeping close company with its wounded mate, and the sea and spray enveloping the crew and at times almost obscuring the boat from view. The enraged whale in her frantic career poised upon her nose and elevating her flukes twenty feet above water would again and again strike fearfully for her invisible foe.

Every attempt to haul up and lance was met by her flukes just clear of the boat. Thus the contest continued without much change of manœuver or advantage gained by either antagonist until about half past five P. M., when the whale succeeded in delivering the boat a slight blow with her tail, knocking on the head of the stern post, breaking the steering oar in several places and filling her to the thwarts with water. Another boat near at hand took her tow-line, but after a short time, the whale still fighting and preventing any near approach and night setting in, they ... reluctantly cut the line and let her go. He ... is thought to be mortal, as she bled profusely, and it is expected she may be picked up in a few days in the bay.

The crew of the crippled boat on reaching the shore was completely encased in ice, enveloping even the head of Smith, who had lost his hat. Several of the other crews were badly frost bitten.—... Register.

The Transit of Venus

In the interesting report of the life and works of Humboldt, by Mr. Henry Stevens of London, now being printed in Silliman's Journal, Mr. Silliman calls attention to the fact that on the 3d of June, 1769, occurred the rarest and most important phenomenon within the whole range of mathematics and astronomy, an event more favorable of its kind than any that had been observed since the Christian era began or would again occur for hundreds of years, an event which Rittenhouse in America, Euler in Germany and many eminent astronomers of other countries were deputed to observe for the benefit of mankind.—

The last transit of Venus, the opportunity for determining the sun's parallax, and consequently the dimensions of our planetary system and our globe, was a conjunction of planets coincident with the birth of twelve imperial men of nature, more renowned than the twelve Cæsars. No other single year, probably, before or since, ever produced such men as Napoleon, Wellington, Soult and Ney, Brunel, Mehemet Ali, Turner, Sir Thomas Lawrence, Chateaubriand, Walter Scott and Castlereagh; Cuvier and Humboldt; men who upturned the world and set it right, who revolutionized science, art, politics, states and the affairs of mankind. Humboldt in some ... is the most gifted of them all outlived them all."

In this connection timely attention is called, in a note, to the fact that the next transit will take place on the 8th of December 1874, which will be a grand one for science, considering the great advance in scientific instruments, but far inferior to the last. If however it produces only half a dozen Cæsars it will be a god-send to the rapid ... Young folks are reminded of the date. Another transit will occur on the 6th December 1882, as they come in couples in June and December about eight years apart—but not again in ... the dawn of the twenty first century.

Horatio Seymour, in the lecture in which he gave some of his recollections of public men at Whitestown, N. Y., lately said that no man who ever lived in this country could lose his temper so judiciously as General Jackson. He spoke of Calhoun as a man of wonderful dignity of manner and of mighty logic; of Clay as chivalrous, having something of the knight errant in him, a fearless debater and a truly patriotic man; and Webster in some respects the greatest of these three, and in other respects the weakest. In his judgment, he said, Webster would have figured better as a literary man. He should have been a student, a historian, or a poet. He had a passion for poetry, and wrote verses exceedingly well. He would have ranked with Burke, he would have eclipsed Macaulay.

The Entertainment to which the Repudiators Invite Oregon

Mr James F Slater asks the people of Oregon to send him to Congress on a repudiation platform, to fulminate against the public credit, to undo reconstruction and to rescind the Fourteenth and Fifteenth Amendments Mr. Slater asks too much The people of Oregon are very well satisfied with the present condition of the public credit With our bonds at 98 in gold there is little to complain of on this score As to reconstruction and the two Amendments, the nation has decreed them, the battle has been fought upon them throughout the Union, over and over again with the same result and there is not a particle of sense in trying to reopen questions which are settled as conclusively as the old differences that existed between parties during the last century

Mr Slater therefore needs something better than repudiation sentiments hostility to the public credit and opposition to reconstruction, to recommend him to the people of Oregon But he tells us that the canvass is to turn on these questions, and the State organ reiterates the assertion This, then, is all they have to offer Here is Mr Slater, rated at his own valuation. Is it worth while to take him? We rather suspect not

Suppose the people of Oregon should send Mr. Slater to Congress Suppose as a result of the same election they should send Col Kelly to the Senate Would not these two gentlemen, going to the National Capital as representatives of Oregon to carry out the ideas of the platform their party has made, cut an exceedingly interesting figure in the eyes of the country? What could they accomplish? Nothing. Their place in public estimation would be so low that no one could ever dive deep enough to find it Their influence, whatever it was, would be a weight and a burden to our State, instead of an advantage to it. Whatever such men, professing such sentiments, should ask, would surely not be granted Their own party at the East would not receive them into fellowship for Democrats there would consider it disreputable to take the position that has been taken by Democrats in Oregon. To send such men to [illegible] Washington would therefore [illegible] Our State [illegible] in peculiar need of assistance by national legislation. All know that the [illegible] is the most important period of its history. At this time when we need all the encouragement and assistance that the Government can give us in pushing internal improvements, developing our industries and laying the foundation of future prosperity, are we going to throw our advantages behind us and send men to Congress on the [illegible] project of repudiating the public debt and rescinding two constitutional Amendments which have just been enacted by three-fourths of the States? Oregon would indeed look well, at Washington, upon such an [illegible]

[illegible] material interest of our State, as well as its honor, is at stake in this matter. In a [illegible] point of view Oregon cannot afford to approve of the Democratic platform; in a moral point of view the case is still worse. Oregon [illegible] not go to Washington "in the [illegible] and cerements of infamy," to be treated with derision, or to be made an object of contempt. Yet such will be the fate of Oregon if she do not [illegible] from her those who would draw her away from an honorable course and [illegible] her upon a career which every other State would shrink back from [illegible]

We want immigration to our State. We [illegible] influx of capital, and have been hoping to get it. We desire to make Oregon favorably known everywhere, in order that good people from all parts may come to make their homes with us; and we have of late been putting forth unusual exertions to accomplish these things. But this Democratic platform [illegible] a blow at the advancement of our State If approved by the people it will take us years to recover from the consequences. People living elsewhere will cease to think of coming to Oregon, and will look for homes in other [illegible] Let it be reported in Germany, where the common people hold our securities by millions, that Oregon has declared for repudiation, and how many Germans would think of coming to Oregon? People everywhere would shun us. The blight of repudiation [illegible] would settle upon our State, and Oregon, so greatly favored by nature, would soon be a good country to emigrate from.

General George H. Thomas

One of the few very great soldiers developed by the late war was George H Thomas. So long as [illegible] shall flourish and unselfish patriotism, united with military abilities of the first order, shall be duly appreciated, the name of this great soldier will be held in high and honorable estimation His death will create a grief as profound as his fame was widely extended.

General Thomas was one of the few Virginia officers who at the outbreak of the war stood firmly by the country and refused to be led away from his allegiance to the Government by the sophistry of State allegiance, which carried over Lee and a host of others to the side of the rebellion. From the very beginning of the war to its triumphant close, to which result hardly another man contributed more, General Thomas was in active service. His achievements in Kentucky and Tennessee form a chapter in the history of the country not surpassed in glory by the achievements of any other soldier Stone River, Chickamauga and Nashville, will forever echo his fame

Born in Virginia in 1816, General Thomas entered the army in 1840, at the same time with General Sherman He took part in the Florida war and served in Mexico, where, at the battles of Monterey and Buena Vista he won the brevets of Captain and Major At the outbreak of the rebellion he was a Lieutenant Colonel His promotion to the full rank of Major General came to him as a piece of tardy justice, after the splendid battle of Nashville. There are not a few who think that the Lieutenant Generalship, which was conferred on Sheridan a year ago, was rightfully due to Thomas, but this uncomplaining patriot always served his country for his country's good, and not for any honors he had to bestow At the time of his death he was commanding the Military Division of the Pacific The country contains few men whose death would be more deeply or more generally lamented than his will be

The *Herald* is of opinion that most of the soldiers will be disposed to vote against the Radicals" Of course! they are accustomed to do that sort of thing aren't they? The *Herald* probably means rebel soldiers. There are as few Union soldiers who vote Democratic as rebel soldiers who vote Republican

Plain Questions

At the ratification meeting on Monday evening Col Kelly stated that he would during the progress of the canvass deliver other speeches here We therefore take the liberty of suggesting some questions to which plain answers are respectfully solicited when he again appears to discuss political topics

1 Col Kelly wants "equitable adjustment which he and his political associates define to be a cutting down of the public debt fully one-half and repudiation of the whole if this partial repudiation be not concurred in Now let us suppose a case Col Kelly we will say wants to borrow five hundred dollars to meet an imperative demand He must have the money But his credit being considered shaky he is obliged to give his note for eight hundred in order to get the five hundred This note or bond passes into the hands of other parties being transferred from one to another in the regular manner of ordinary business transactions The bond falls due, and the Colonel declares that having paid interest for a long time on a bonus, he is not going to pay the whole amount of the debt, but that he will pay half of it, and if the holder of the bond (who knows nothing of its origin and has received it for a valuable consideration) will not take this he shall have nothing Will the Colonel in his next speech be kind enough to say whether, according to his code of business morals this transaction on his part would, or would not, be honorable? This is exactly the case of a portion of the public debt and this is exactly the way the Colonel would equitably adjust it

2 Col Kelly is a lawyer yet he insists that Government securities ought not to be exempted from taxation, and censures Congress for enacting a law to exempt them Does Col Kelly, being a lawyer, know or does he not know, that it is not a law of Congress but the Constitution of the United States that exempts Government securities from State and municipal taxation? Does he know or does he not know that these securities cannot be subjected to taxation in any event, by law or otherwise? If he knows this he should be ashamed to be clamoring for the taxation of Government securities, if he does not know it, it would seem to be directly in the line of his duties as a lawyer to go to the authorities and find it out

3 Col. Kelly says the public debt can never be paid. Does he [illegible] does he not know that the Government has been paying it at the average rate of seventy million dollars a year ever since 1865, and that during the past year ninety millions of it [illegible] paid? If he [illegible] this what is his object in denying it [illegible] improper and censurable one? If he does not know it might it not be [illegible] for him, (as he claims to be a statesman and aspires to be a Senator) to endeavor to pick up some information on the subject?

4 Col Kelly complained bitterly on Monday evening that the Government is drawing large sums of money from Oregon every year by the various methods of taxation and that our State is rapidly becoming impoverished thereby. Does Col. Kelly know or does he not know, that the Government of the United States has always expended and that it is still expending in Oregon in various ways for the benefit of the people, three hundred dollars for every one hundred collected under all the various forms of taxation?

We could greatly extend these inquiries, but these will do for the present They are made in the kindest spirit, and, we hope, with a due appreciation of Col Kelly's ability and standing in his party If he speaks again, as he doubtless will, we may have more questions to ask him

Editorial Notes

The *Herald* once more says that Mungen was not implicated in the cadetship infamy Very well, but Golladay, an equally good repudiation Democrat was, which fact the *Herald* looks over entirely

At the Democratic repudiation meeting on Monday evening, many doleful utterances were heard on the subject of taxation One speaker plaintively declared that the good old times were forever gone, that a man could no longer distill a little liquor without being required to pay tax on it, or being subjected to punishment if he refused or failed to do so And then the inquiry came in, "Where are our liberties? Alas! they are forever dead!"

The debates in the Albany Convention show that while several members objected to the adoption of repudiation as a party principle, in every case save one they objected to it merely because it was bad policy for their party, not because it was wrong Mr Johnson of Curry was the only man who put his protest against it on moral grounds He said he would not vote for repudiation, because it was morally wrong But no other member of the Convention opposed it for any such reason. This in itself is a significant fact.

It is thought that the doctrine of "equitable adjustment" was suggested to the Democratic Convention by the practices of certain representative men of the party whom we could name, who never pay a cent of revenue due from them to the Government, but by "equitable adjustment" swindle the Government out of the whole If these representative men could do this so successfully, why couldn't the whole party pronounce for a similar principle? This, probably, was the argument, and hence the "equitable adjustment" repudiation article of the Democratic platform.

Col Kelly of late years has accepted without question all the unreasonable dogmas and ridiculous fallacies put forth by the Democratic party, and is determined, in advance to accept anything and everything the party may enunciate The story of this blind adherence to what he knows to be untenable is a very simple one About a dozen years ago he asserted his independence on one occasion, and dared to do what he thought was right. But he lost his standing in the party by it, and regarding this action as a political blunder he is determined never again to protest against anything his party may do no matter how absurd or indefensible its conduct may be

Work was resumed on the mint at the Dalles on Monday It will be resumed on the Government buildings here and at Astoria in a short time Yet Col Kelly in his speech on Monday evening said that the Government was taking money from Oregon by taxation all the time and was doing nothing for the State, and that no more work would ever be done on the public buildings that have been commenced. Surely he must have been ambitious to make on that occasion the very worst and most bigoted partisan speech he ever made in his life He knows as well as anybody that work was suspended during the rainy season because of the impossibility of carrying it on in such weather

A barrel factory has been started at the Dalles, and the manufacture of fanning mills is also carried on

Portland Astoria and West Side Railroad

The following dispatch was received at this office yesterday from Senator Williams

WASHINGTON, March 29 1870

The House Committee have agreed to the Port land, Astoria and McMinnville railroad bill which will pass as soon as it can be reached

GEO H WILLIAMS

This is welcome intelligence Senator Williams has taken great personal interest in urging this bill upon the House Committee and as they have agreed to report it there can now be no doubt but it will pass We shall now have an opportunity to see another manifestation of Democratic opposition to land grants That ridiculous bill of Smith's which was clearly thrown in with a hope of defeating all grants for the west side and then giving opportunity to lay the blame on Republicans has not been heard of since it was first proposed But this bill which conveys a grant of great value will go through and thanks to the liberal ideas of Republicans in Congress the railroad system of this State will be fostered and built up The people of Oregon will not be slow to see who are their friends and supporters in these important matters

THE WEST

The Idaho *World* says the snow on Summit Flat, at the head of Grimes, Elk and Moore's creek, is from ten to fourteen feet deep and very solid.

Stock at Walla Walla suffered comparatively little during the late fall of snow A very few cattle died, but they were quite poor before the storm set in

The snow fall on Walla Walla Flat, near Idaho City, this season, has been as follows November, 11½ inches, December 2¼, January, 40, February, 17, from the 1st, up to and including the 13th of March, 10 inches, making a total of nine feet and one inch

The agent of the Union Pacific Railroad at Omaha is desirous of receiving specimens of Idaho quartz petrifactions, fossils and anything else in the curiosity line, peculiar to the Western country. They are intended for a general cabinet to be kept open for general inspection at Omaha so that the traveling world may see and admire them.

The late snow, says the Walla Walla *Statesman*, starved out large numbers of squirrels that infest the valley, and it is said that hundreds of them could be seen in places a few days ago scattered about on the top of the snow dead Those little animals are the worst pests the farmer has to contend with as they forage upon his grain and sometimes destroy it by the acre It seems their winter stores were exhausted when the snow fell, and being poor "rustlers" in snow they died from starvation

From the Walla Walla *Union* It is now a settled fact that all the fruit excepting apples, has been materially injured if not entirely destroyed by the cold weather since the first of February There will be no peaches or cherries to speak of in this valley Apples are damaged to such an extent that there will be only a partial crop while the smaller fruits, such as gooseberries, currants raspberries etc are likewise greatly injured, and we predict a very light yield of everything in the fruit line

On the 11th inst Stephen Martindale (generally known by the name of Dale), and A M Branton, were ferrying some lumber over the Snake river about three miles above Fish hook Bend, and when they reached the middle of the river they were upset, and Mr Martindale drowned Branton narrowly escaped the same fate, he, however, gained the shore in safety, after remaining in the water an hour The body of the drowned man had not been recovered at last accounts, although diligent search had been made for it Mr Martindale is the man who lived at the bridge on Pudding river, in Clackamas county, Oregon, some eight or ten years ago, and who had a difficulty with Mr Irvin, the proprietor of the bridge which resulted in the death of the latter

The Boise *Statesman* has the following The Boise river mines commencing about twenty five miles above this place and extending some twenty five miles further along the stream are attracting considerable attention The claims of Messrs Lambing & Co some thirty five miles from this city are all ready to run in fact have already been in operation but were compelled to stop on account of the freeze last week Mr Lambing came to town on snow shoes, bringing with him the result of one day's run, and is sending out provisions preparatory to a vigorous prosecution of the work when the ground thaws out They have a ditch reservoir and hydraulic all in order and a fine prospect for plenty of water during the season The bars are high the gold very fine and hard to save but sufficiently plentiful, if properly handled to make $5 diggings Chinamen are being introduced to some extent and everything bids fair to make it a lively mining camp

Congressman Smith writes to the *Herald* to correct what he says was a wrong construction of his former letter relative to a branch railroad to Puget Sound He says the change now asked for is to allow the North Pacific company to construct the main line via the Columbia river to its western terminus on Puget Sound and to branch over the mountains to the Sound The doubt I meant to express as to the construction of the branch referred only to what will be the branch line under this new arrangement I had an amendment incorporated into the pending joint resolution authorizing the change, requiring that part of the road between Portland and the Sound to be commenced and twenty five miles completed by the first of January 1872 and forty miles a year thereafter until the whole is finished between the two points Mr Garfielde concurred with me in insisting on that amendment to the resolution as proposed by the company I have no doubt it will pass and that that part of the road will be built long before the other is completed As to which of the two points the terminus on the Sound or Portland will be the place of greatest importance, it is not necessary for me to express an opinion

OREGON.

The Republican Convention for Polk county will meet on the 13th of May to nominate a county ticket

Mr Meacham Superintendent of Indian Affairs left the Dalles, for Warm Springs last Thursday, in company with Capt Mitchel the agent, and Dr Wm McKay

Mr D Tuthill of Santa Cruz Cal writes to Sam F May that Mr Burrows, who is now in New York, will upon his return commence the work of erecting gas works at Salem and intends to have the city lighted by September next says the *State* [illegible]

The Dalles [illegible] says the machinery of the Glendale Woolen Factory will be [illegible] about two weeks [illegible] perhaps [illegible] things as need a sharp edge

[illegible] Mr Myer Superintendent [illegible] of Public Schools [illegible] the [illegible] report [illegible] $3 37 02 amount per scholar [illegible] realized during the past year by fines and forfeitures was $172

Dalles [illegible] Some 11 deserted buildings were burned the other night by boys for the fun of the thing The Republican nominations are well received in Wasco Miss Harriet J Perkins a young lady about 18 years of age died very suddenly on Sunday night the 20th while asleep in bed with her aunt which was not discovered until Monday morning Some new comers from Minnesota are inquiring for farms Work commenced on the mint building Monday morning

The Salem *Statesman* says The Central Committee have made arrangements for a special boat for the convenience of Delegates to the Republican State Convention A boat will leave Eugene City on Monday morning should the water permit navigation that high up leave Albany on Tuesday and Salem on Wednesday morning She will not take freight and will only land to take on passengers, so that the trip can be made with as little inconvenience as possible Delegates should note this arrangement and govern themselves accordingly Persons not delegates can go by paying passage at half the usual rates

From the Yakima Valley

[From the Mountaineer of March 28]

From Mr T Johnson, of Rockland, who has just returned from the Yakima Reservation, we learn that the late Indian scare was caused by a number of men who wished to run out of the county certain Republicans, so that the Democrats would have the majority in the next election for the purpose of changing the county seat It appears they sent a man in the night to the settlers in the Ataham Valley telling them that the Indians had broken out on the Yakima river and for them to defend themselves The result was that a large number of settlers, with their families left the valley in a terrific snow storm some of them going to Umatilla while others came to the Dalles The Indians of the Reservation are much dissatisfied at the present state of affairs They are in want of seed but there is no one there with the authority to purchase seed for them Lieut. Smith the present Agent, has been absent all winter at Olympia There is a probability, that want of attention on the part of the Agent, may cause some serious trouble with the Indians. Mr Johnson reports the trail as in a very rough condition, and the wagon road as impassable The cattle in the Yakima are all looking well The entire country is fast filling up with settlers, in fact almost every place fit for a farm in the Atahan Valley is already taken up This country has all been surveyed and is now open for entry The snow on the Snoqualmie Pass is reported to be from ten to twelve feet deep

[illegible] The lecture last evening [illegible] by Rev J E Knight of [illegible] was [illegible] careful thought by [illegible] Church Etiquette The lecturer [illegible] by saying that many books [illegible] subject of general etiquette and special rules of etiquette [illegible] places and [illegible] being court etiquette [illegible] table etiquette street etiquette room etiquette and why not Church etiquette? He held that the Bible was the most complete and simple book of etiquette that was ever written and showed that [illegible] golden rule could [illegible] Thus believing the Bible to be in advance of all other books [illegible] manners the Church should be in advance of all other institutions and [illegible] in the practice of good manners [illegible] to be considered without [illegible] took up the [illegible] regard as he said to their order any particular [illegible] picking them up and flinging them behind him [illegible] The first bad habit was that of [illegible] be went along This was very [illegible] ing late at church [illegible] investigated and flung back as [illegible] picked up after which the speaker alluded to neatness of dress but desired to be understood that [illegible] cleanness he was speaking of was not foppishness [illegible] display That there was [illegible] medium and on either side extremes He held that the beggar woman has more right to [illegible] church for the purpose of exhibiting the signs of her poverty and degradation than the lady of fashion has for the sake of displaying [illegible] signs of her wealth and folly We should like to pursue the lecturer farther upon this point as the grounds were well taken and the public would be very materially benefitted by a study of this subject. He next touched upon the baby-in-church [illegible] It was a very delicate point, but was ably managed One or two questions were asked, which [illegible] bear weight with them For instance [illegible] should we get nervous and fly into tantrums when [illegible] we see history repeating itself? When we were babies we would cry And why should we be so extremely sensitive when a baby cries in church? Of course he said it was a breach of etiquette for the baby to cry but if the preacher makes no fuss about it and the mother [illegible] joys it, we ought to be able to [illegible] ourselves and listen to the sermon rather than the baby Coughing in church was next treated upon scientific grounds It was deemed to be as great a disturbance as baby crying, and very often it is as inexcusable for the man [illegible] and the baby does not Sneezing was taken as a near relative to coughing, and treated accordingly Tobacco chewing in church, he [illegible] would not be too bitterly denounced, and the habit anywhere was beastly and detestable. The last point considered was the proper treatment of strangers in the house of worship. Show them respectful attentions, make them feel at [illegible] and ask them to come again The [illegible] [illegible] this point by the [illegible] itself to every churchman and minister in the land and we should be really pleased to see its introduction into every church. He held it to be true that every member of a church, and every pew holder ought to regard himself as a host and every host ought to heed the injunction "Be not forgetful to entertain strangers" [illegible] If you come late and find a stranger in your seat, do not look at him askance, as much as to say [illegible] wonder who you are, where you came from, where you are going and what you are doing here?" [illegible] give him a hearty welcome, a [illegible] square honest look and a friendly shake of the [illegible] Show that you are glad to see him and would be glad to see him again

A JAPANESE ASSAULT —While strolling, on First street about 2 o clock P. M. [illegible] with a gentleman, an Indian with a [illegible] on him approached us with the [illegible] that a Celestial near by residing at the sign of [illegible] Verein Hall, was murdered, (killed). [illegible] ceeding that way we observed that the Chinaman was [illegible] rather profusely, but [illegible] men, boys girls etc. standing about, [illegible] indifferent as to what had [illegible] nobody took any pains to notice [illegible] on the spot we were much surprised at the [illegible] Finally, a young man with a bloody [illegible] [illegible] to know something about the matter [illegible] us that the Chinaman had [illegible] things about there some, and he had [illegible] on him to settle the matter [illegible] in the distance approaching, we had [illegible] far up town, and walked on, putting our [illegible] the courts for further knowledge of the [illegible] of this assault [illegible] The China boy was very sick, and looked as if he had been badly cut over the temple, or on the face.

CITY.

CHURCH ETIQUETTE.—The lecture last evening at Philharmonic Hall, by Rev P S Knight of Salem, was one of general interest. It was upon a subject quite deserving of careful thought by the public, to-wit "Church Etiquette." The lecturer opened his subject by saying that many books have been written on the subject of general etiquette, and special rules of etiquette have been prescribed for special places and occasions, there being court etiquette, ball room etiquette, table etiquette, street etiquette, and why not Church etiquette? He held that the Bible was the most complete and simple book of etiquette that was ever written and showed that he who fully observed its golden rule could not be ill-mannerly in any society. Thus believing the Bible to be in advance of all other books as an instructor of good manners the Church ought to be in advance of all other institutions and so on in the practice of good manners. He then took up the questions to be considered without any particular regard, as he said, to their order, picking them up and flinging them behind him as he went along. The first bad habit was that of being late at church. This was very pleasantly picked up, investigated, and flung back as proposed, after which the speaker alluded to neatness of dress, but desired to be understood that the neatness he was speaking of was not foppishness nor the neatness, display. That there was a ... on either side extremes. He held ... that the beggar woman has more right to visit church for the purpose of exhibiting the signs of her poverty and degradation than the lady of fashion has for the sake of displaying the signs of her wealth and folly. The occasion is said to have been ... novel in its nature, but very interesting ... in attendance. On Thursday ... of this week, Prof Cardinell will give his last party for the season, at Washington Guard Armory.

A NEW INVENTION.—We were yesterday invited to inspect the model for an invention for car... off the sparks from a steam engine smoke stack, which is on exhibition at the store of E. Martin & Co., O S N Co's block. It is a very simple affair, but if it works as well as its appearance indicates it will, the inventor, an Oregonian living at Eugene City has got a good thing, and so have the steamboat men mill owners ... who adopt it.

VERDICT FOR DAMAGES.—A gentleman who was in attendance at the Oregon City Court room yesterday, informs us that the jury in the case of Mrs. Riley the lady who was injured by the fall ... of the seats at Wilson's circus last year had awarded her damages to the amount of $3 000. Hamilton for plaintiff, Page, Johnson & McCown and Bonham for defense. When the Alert left yesterday for Portland, the Court was yet in session.

SEE IT.—Any person unacquainted with the conventionalisms of society in Portland might think that the advertisement of Messrs Kohn & Fishel in another place was all bosh but it is not. What is there stated is certainly true.

NO COURT.—We understand that inasmuch as Judge Upton has been obliged to remain at Oregon City longer than was expected no session of the Circuit Court for this county will be held on the day set at the time of adjournment.

GET A HOME.—Persons desiring to get a homestead should not fail to be in attendance at the real estate sale by A B Richardson to day. Read the advertisement. We are told that the cottage is a very comfortable house.

BEACH'S BAND.—The leader of Beach's Band arrived in this city last evening expecting to purchase about 130 instruments and send them up for the use of the band during the canvass of 1870. The band is now playing.

PERSONAL.—Capt F O McCown and Rev C W Todd of Oregon City called a moment to converse yesterday. J W Johnson, Esq late of the McMinnville Courier also called yesterday.

PLENTY OF HAY.—If that old maxim, "make hay while the sun shines," could be literally carried out now, there would be a great abundance of that article on the market just at present.

U S District Court Judge Deady will be in session to day.

Hiram Smith Deceased

As the pioneers of American civilization in Oregon are so rapidly passing away and of the little band who toiled their weary pilgrimage over the plains as early as 1845 so few remain, while we enjoy the benefits of their great endurance and deprivation, it would seem highly proper that a more extended notice than has heretofore appeared in the public prints with reference to our late fellow citizen Hiram Smith Esq should be given.

Of the very early life of Mr Smith we know but little except that he was born at Danville, in the State of New York and grew up to early manhood at that place. The first that the writer personally knew of the subject of this notice was at Findlay Ohio about the year 1842. At that time he possessed the same active restless energetic and enterprising spirit that characterized him to the moment of his death, and we well recollect the interest that was excited in that country when he first organized an expedition overland to Oregon, in '45. Afterwards with him came Cook, Williams, Patton and others since conspicuous in Oregon history. Since that time he has crossed and re-crossed the plains six times, and it is safe to say that no man in private life has done more to advertise the advantages of Oregon than he. Unostentatious and eminently practical, he was always a safe counsellor and while he was ever willing to assist with his counsel, no one was more ready to furnish those in need, with whatever means happened to be at his command.

He went far out upon the plains during both the summers of '62 and '63 to meet the incoming emigration and freely succored those in suffering circumstances, and encouraged all by his generous welcome. No private sacrifice was too great to be made, no hardship too great to be endured, no danger too formidable to be braved by him, in order to smooth the rugged pathway of the care worn and disheartened emigrant. Truly the "blessing of those ready to perish" followed him. But not only in private life was his influence and kind offices bestowed, but during the unfortunate civil war that devastated the country no one more patriotic in principle no one in proportion to his circumstances more liberal than he. As one of the many instances of his generosity in those troublous times we make a brief extract from the Findlay (O) Jeffersonian of December, 1863:

"In this selfish world, an instance of pure unadulterated generosity is refreshing. Mr Hiram Smith, formerly a resident of this place, but now of Portland Oregon, has been in town for several weeks. Yesterday he handed the trustees of this township $1 000 to be distributed among the widows of soldiers from this township. It does us good to know that such a man as Mr Smith is, and has been prospering. We know that he will continue to prosper. More than one good woman who has given her husband to her country will bless him, more than one child will thank him for his well timed munificence. 'He that giveth to the poor lendeth to the Lord.' That thousand dollars is bearing a heavy rate of interest that will be credited up to him in the next world. All honor to him."

But it was more particularly in private circles that his munificence was most felt. As above stated, his was the kind of charity that despised ostentation. Hundreds of families scattered over the Pacific coast date their first prosperity from substantial aid, received from him, and that too under circumstances where others were not likely to relieve. Indeed, it has often been remarked of him as peculiarity, that no matter how poor, how humble, or even degraded a person may have become, his hand was always ready to raise him up without stopping to inquire how he happened to become unfortunate.

By his untiring energy and judicious management, he accumulated a large estate. Though long married, he never was blessed with children. His widow, Mrs Hannah M Smith, so long his efficient helper and counsellor, survives him. He was permitted to retain his full consciousness until his last moment. He died at the city of San Francisco, Cal, on the 17th day of January, 1870, expressing his heart felt desire for the happiness of all. His wife and several other relatives were with him during his last sickness, to the end. His remains were brought to this city, and although the notice was brief and the weather very inclement multitudes braved the elements, and in solemn procession accompanied him to Lone Fir Cemetery, where all that was mortal of Hiram Smith now reposes. Peace to his ashes."

"Equitable Adjustment" Explained

J D Fay, Esq, of Jacksonville, was announced as one of the speakers to address the Democratic ratification meeting in this city on Monday evening. He was unable to be present having been called away on business but he addressed a letter to the President of the meeting, giving his views on the platform and explaining the meaning of "equitable adjustment." We desire to call particular attention to this letter. Mr Fay speaks by authority being a representative Democrat, and having borne a leading part in the construction of the platform. We print the letter now, and shall notice it at a future time. It is dated Portland March 27 and reads as follows:

I see my name announced in the Herald of this morning as one of those who are expected to address your meeting on to morrow evening at Oro Fino Hall.

I feel honored by the mention of my name in that connection and much regret that circumstances place it out of my power to be present. A prior engagement at Dayton makes it imperative upon me to leave by the steamer for that point early to morrow morning.

I more particularly regret my inability to be present because I had received and accepted an invitation to address the Ratification meeting in this city and hence my presence here at this time.

But though I cannot be present in the body I will be in the spirit with you and my remarks will I am sanguine meet with the hearty endorsement of every Democrat when I say that could I be present I would cheerfully sustain the noble leader of the Herald of this morning in regard to the Eighth Resolution of our Platform. It is that strongest citadel of the Democracy of Oregon which our foes most assail, and they will but waste their ammunition against it. The huge and fraudulent National Debt must be equitably adjusted, and if that leads to its practical repudiation, or, to the compulsory disgorgement from the Bondholders of the sums which they have by the Debt, forcibly and wrongfully wrested from the toiling millions the people will but receive their full and equitable measure of justice at last, and the grasping Bondholders will likewise be justly dealt with. It will not do to longer extort the blood and sweat of the poor man to fill the overflowing coffers of the purse proud rich who alone have been benefitted by the late unholy civil war.

What does Reason say?

The little mongoose when bitten by a deadly serpent resorts to a certain plant, eats of it, and escapes the effect of the poison. That is instinct. Human beings on the other hand must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now what does reason say on this vital subject? Does it not tell us that to invigorate and purify the system is the best way to protect it against the invisible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies let your monitor be experience. Well the experience of eighteen years comprised in one unbroken series of satisfactory testimonials assures us that Hostetter's Stomach Bitters possesses strengthening regulating and antiseptic properties which are not combined in the same happy proportions in any other preparation extant. This therefore is the antidote to which reason bids us resort when our health is imperilled either by the malaria which produces epidemic disorders, or by any other cause whether inherent and constitutional or connected with our habits occupations and pursuits.

The venom of a noxious reptile is scarcely more subtle and dangerous than that which lurks in foul air and impure water. To escape the fevers, bilious disorders, disturbances of the bowels and other serious maladies produced by these insalubrious elements it is necessary that the stomach and all the secretive organs should be so to speak in a robust condition. Upon the amount of resistance which the vital system can oppose to the deleterious influences that assail it the safety of the health depends and it is because the GREAT VEGETABLE INVIGORANT imparts energy and regularity to the most important functions of the body that it can be recommended and guaranteed as an invaluable preventive medicine.

Wages of Machinery.

ITS PERCENTAGE OF THE MANUFACTURING CAPITAL OF THE COUNTRY.

The *Scientific American* in an article upon "the wages of machinery," adduces some interesting statistics bearing upon the question of protection or free trade. Now nobody will think of accusing the *Scientific American* of any political bias, while it is certainly one of the highest authorities upon the subject of machinery and manufactures in the country. It declares that, in 1860, the capital employed in the United States in manufacturing was $1,009,855,714. The manufactured products of the country that year were worth $1,885,861,676. Fifteen per cent. of the total manufacturing capital, or $151,488,357, was earned by machinery only, while human labor earned $378,878,965. Therefore the wages of, or cost of running machinery in manufacturing, only represented eight per cent. of the worth of the manufactured product of the country. Therefore it follows that if the machines cost nothing at all to run them, the reduction of the cost of American manufactures generally would be only eight per cent. It is the high wages paid American men and women for labor that the tariff protects against the low wages paid to men and women for labor in Europe.

As to the free trade outcry about the tariff on pig iron making everything manufactured of iron or steel higher here than in Europe, the *Scientific American* says that the cost of the raw iron is on an average only ten per cent. of the price of articles manufactured of iron and steel, so that, if we had our raw iron given to us outright, free of cost, the price of machinery and of iron and steel manufactured articles would only fall on the average ten cents on the dollar, while it would only make a difference of eighty cents in a thousand dollars in the general cost of manufactures. The removal of the tariff on pig iron, therefore, would make scarcely an appreciable difference in the whole cost of American manufactures to consumers. It might ruin the American manufacturers of pig iron, but the mass of the people would not feel their expenses lessened at all.

THE WONDERS OF A WATCH.—There are very few of the many who carry watches who ever think of the complexity of its delicate mechanism, or of the extraordinary and unceasing labor it performs, and how astonishingly will it bear up and do its duty under what would be considered shabby treatment in almost any other machinery. There are many who think a watch ought to run and keep good time for years, without a drop of oil, who would not think of running a common piece of machinery a day without oiling, the wheels of which do but a fraction of service. We were forcibly struck with this thought upon hearing a person remark that, by way of gratifying his curiosity, he had made a calculation of the revolutions which the wheels of a watch make in a day and a year. The result of his calculation is as suggestive as it is interesting. For example. The main wheel makes four revolutions in 24 hours, or 1,460 in a year; the second, or center, 24 revolutions in 24 hours, or 7,760 in a year; the third wheel, 192 in 24 hours, or 69,080 in a year; the fourth wheel, which carries the second hand, 1,440 in 24 hours, or 525,600 in a year; the fifth, or scapewheel, 12,964 in 24 hours, or 4,728,400 revolutions in a year; while the beats or vibrations made in 24 hours are 388,800, or 141,912,000 in a year.

FINANCE AND COMMERCE.

[illegible] Tuesday, March 29th, 1870.

Gold to-day at New York 111⅛.

Portland [illegible] rates 89@90c.

There is a growing demand upon the banks for money, growing out of its being wanted for real estate investments, city improvements, etc. There are also some borrowers who are compelled by the [illegible] of establishing business to resort to loans to carry them over the close of the month, which brings with it more than the usual strain, [illegible] of the taxes being superadded to the ordinary bills to be met. We find, however, a hopeful feeling in regard to financial matters, as it is believed that the [illegible] will give us an early and more abundant yield than for several years.

[illegible] to-day has been fair in most lines, though not in any respect lively. We find nothing in the merchandise [illegible] to call for comment, beyond the continued firm [illegible] of prices of all staples.

Produce is unusually dull since the sailing of the steamer. The arrivals are confined to small lots of provisions. The [illegible] for export is not sufficient to afford any [illegible] it just at present; but it is believed that it must be in demand before the spring months are over.

The steamer to-day took only 175 bxs Apples, 3 cs [illegible] Lard and 352 gunnies Potatoes. There is some inquiry for potatoes for the San Francisco market, as the [illegible] will now justify shipment. The supply in the country must be abundant, as there has been [illegible] upon it beyond local consumption.

[illegible] in the Interior.

The Walla Walla *Statesman* of the 26th says that a gentleman just from the Yakima country, reports the [illegible] in that section of some rich gold-bearing quartz veins.

The steamer [illegible] will resume her trips on the Pend d'Oreille on or about the 1st of April. For [illegible] advertisement in another place.

The [illegible] of Lewiston are talking of raising money to [illegible] the Lo Lo Fork trail, by which the Oro Fino mines could be reached in a distance forty miles less than by the Mullan road.

The Salem *Statesman* of to-day says: Messrs. Uzafovage & Wright yesterday shipped to Corbitt & Macleay, Portland, 1,200 lbs. of Oregon Cheese, made by Mr. Bryant, at the Delaney farm, on Mill creek, six miles south of Salem. He still has some 1,500 lbs. of Cheese on hand [illegible] having sold 1,000 lbs. during the winter in this market. Mr. Bryant intends to carry on the manufacture of cheese still more extensively during the summer. The quantities above named have been made by him during the winter.

A private letter from the master of the schooner *Alaska*, under date of Honolulu, February 26th, has been received by a Front street merchant, from which we learn that she arrived in Honolulu on the 18th of last month, after a stormy passage of 28 days. At the time of writing she was receiving a cargo of salt for Port Townsend, and it was expected she would sail so as to arrive at that port on or about March 23th inst.

H. T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT BUCHU.

The Great Diuretic.

THE PROPRIETOR TRUSTS THAT HIS REMEDIES from the fact of being advertised, may not be classed as patent medicines.

BUCHU in one form or other has been prescribed by every educated physician for more than

TWO HUNDRED YEARS.

H. T. HELMBOLD claims a superior mode of extracting its virtues. The experiments were made while engaged in the DRUG business in the city of Philadelphia 19 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the liver or any other organ of the body. Upon the sound and healthy condition of these organs, the nervous system and liver were involved, and the happiness of the entire human family depended.

The BUCHU, acting favorably upon both Liver and Kidneys, to prepare it so it would retain its strength and active principle was his aim. It must not be made as housekeepers make tea, by boiling. It is a delicate Leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and of the lone leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION IS ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

My Fluid Extract.

THE ARTICLE STANDS PRE-EMINENT, AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults, children. Ignorant persons, who pay no attention to dose, direction or advice, who might reason, "That if a teaspoonful taken occasionally did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipation and on this principle, but they had been years in doing so.

What I would have published is that no injury can arise from its use. It is as safe as any article of food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle.

Notwithstanding the number of years I have been engaged in business, there may be those located at a distance that may not be aware of all the facts, and would like to be satisfied on all the points. Having been educated a druggist, I append the following:

From the Largest Manufacturing Chemist in the World.

"I am acquainted with Mr. H. T. Helmbold. He occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,

"Firm of Powers & Weightman,

"Manufacturing Chemists, Ninth and Browning Sts., "Philadelphia, Nov. 15, 1854."

I propose to give evidence that this remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "*Publicity*." If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge. We have yet to learn from what chapter or verse in Scripture to quote, "that men may not heal others of *their fellow-men of any disease*."

Nor have we asked "Pickwicks, *Affected Prudes*, or in short, *men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own*. The Buchu is a good thing—it has hundreds of thousands of living witnesses to attest its virtues and commend it. It is the prejudice of bigots and the envy of "Quacks."

We offer the following evidence:

BUCHU.—Its odor is strong, diffusive, and somewhat aromatic; its taste is bitterish, and analogous to that of mint. It is given chiefly in complaints of the urinary organs, such as gravel, chronic catarrh of the bladder, morbid irritation of the bladder and urethra, disease of the prostate gland, and retention or the incontinence of urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in dyspepsia, chronic rheumatism, cutaneous affections and dropsy.

Cure of Gravel of Five Years' Standing—Stone Passed and to be Seen.

SAVANNAH, Tenn., May 14, 1869.

Dr. H. T. HELMBOLD:—Dear Sir: We introduced your "Fluid Extract Buchu" in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county, named J. B. Estell, had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully yours, &c.,

ECCLES & HINKLE, Druggists.

Cure of Bladder and Kidney Affection of Long Standing—Stone Passed and to be Seen.

WESTPORT, Conn., Sept. 5, 1869.

H. T. HELMBOLD, Esq.: *Dear Sir*—I commenced taking your "Extract of Buchu" about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours, truly, THOMAS J. BENNETT.

Cure of Kidney and Bladder Affection of a Patient Seventy-eight Years of Age.

THANKS TO MR. HELMBOLD.

GIRARD, Pa., March 31, 1869.

Editor Cosmopolite—I desire, as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder disease, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using, with little faith and no apparent beneficial results, for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use; and now, at the expiration of four months, although I am an infirm old man, nearly seventy-eight years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN.

DR. KEYSER,

A PHYSICIAN OF OVER THIRTY YEARS' EXPERIENCE, AND A GRADUATE OF THE JEFFERSON MEDICAL COLLEGE, AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA

MR. H. T. HELMBOLD—DEAR SIR: In regard to the question asked me as to my opinion about Buchu, I should say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form of preparation of it I have not used, or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powdered leaves, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to judge of its merits, and, without prejudice or partiality, I give yours preference over all others.

I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietary compound of whatever name. Respectfully yours, &c.,

GEO. H. KEYSER, M. D.

A Case of Twenty Years' Standing.

PHILADELPHIA, Penn., June 25, 1867.

H. T. HELMBOLD, Druggist—DEAR SIR: I have been a sufferer for upward of twenty years with gravel, bladder and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious, in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs and juniper berries, it occurred to me and my physician as an excellent combination; and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory.

I am now able to report that a cure is effected, after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use on such affections.

M. McCORMICK.

RAHWAY, N. J., December 2, 1869.

H. T. HELMBOLD, Esq.—Dear Sir: I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your "Buchu" has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your "Buchu." I followed directions, and to my utter astonishment before I had taken seven bottles of your valuable medicine (I would give $100 a bottle, if I could not get it at any other price) I am entirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. Any information my fellow-citizens may require will be freely given by the subscriber, at his residence, No. 78 Milton ave., Rahway, New Jersey.

(A Home and School for the Sons of Deceased Soldiers.)

DR. H. T. HELMBOLD: Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant, A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance; and many a poor child, suffering more from weakness than from habit, may be spared punishment that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. Thanking you on behalf of the children, and hoping others may be alike benefited, I am respectfully yours,

COL. YOUNG,

General Sup't and Director.

Great Salt Lake City, Utah,

January 28, 1858.

MR. H. T. HELMBOLD—DEAR SIR: Your communication requesting our terms for advertising was duly received, but from a prejudice I had formed against advertising "cures for secret diseases," it was left unanswered. During an accidental conversation in a drug store the other evening, my mind was changed on the character of your Buchu. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of advertising. Yours &c.,

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of poisons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of those horrible life-destroying maladies. See that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN.

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers, etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, yet you will find their former occupations in it. Look at the Directory for 1862 and 1868. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 952 ON THE LETTER.

Consultations FREE.
